

PRESS RELEASE

Immediate 14th February 2014

BRITAIN'S SME QUARRY OPERATORS ASSIST FLOOD PROTECTION

To assist the Environment Agency and others to obtain supplies of both good sand, and bagged sand, the British Aggregates Association (BAA) has extended its supplier database for winter road gritting materials to include members who are able to supply sand in the current difficult conditions.

ENDS

Notes:

- The [database](http://www.british-aggregates.co.uk/news/press.html) is attached and is also available at <http://www.british-aggregates.co.uk/news/press.html>
- The Association represents the interest of the SME privately owned independent industry sector with some 115 members, 70 who own and operate quarries throughout the UK with 13% of national output and over 300 individual sites. We are fully represented with other industry bodies and with local, national and EU government and policy makers.
